Kiowas, Garches (France)

Lyon Apparel is a young and dynamic company dedicated to American Football teams in Europe.

The company has been created by a Football player, allowing **Lyon Apparel** to know exactly the needs of playability, ease and comfort of the garments, but also solidity and endurance against the regular traumatizing situations for the fabrics.

On the other hand, as a former President of a small Club in France, difficulties of the teams are a quite well known issue. The limited budgets of the teams, the small offer of specialized products dedicated to American Football in Europe compared to the other sports, and the difficulties of the volunteers who have to lose time to find the good supplier in the good place and at the good moment, all this made the founder of the company to answer this increasing demand.

There are more and more American Football teams in Europe for our pleasure and entertainment. One of the first and necessary needs of a team is to purchase a first or to renew its set of jerseys and pants for the games. This is the reason why **Lyon Apparel** has been created: to offer quality and sustainable American Football garments at a very low price.

Please, feel free to contact us by email or by phone, **Lyon Apparel** is at your disposal for any request, enquiry, quotation or drawing _ all for free of course.
